1. **Coast of Maine Black Earth Topsoil-** Apply & Rake Smooth
2. **Jonathan Green® Seeding & Sodding Fertilizer –**
Starter Fertilizer
3. **Jonathan Green Mag-i-cal Plus® -**
 - All-in-One solution to raise soil pH, reduce compaction, and feed microbes
 - Natural ingredients transform the soil for optimal plant growth
 - Rapidly raises soil pH and improves nutrient absorption
 - Loosens hard soil for improved aeration and better rooting
 - Suitable for all grass types and gardens!
4. **Jonathan Green® Grass Seed –** Use Iron Rake or Leaf Rake with Metal Tines, Turn Rake Upside Down, Using Pressure “Scratch the Surface” to incorporate all of the ingredients within the top ¼” of the ground
5. **Plant | Apply Pressure -** Tamper, Water Roller, Drive Over; Pressure assists in breaking the seed open to allow germination
6. **Harvey’s Own Weedless Rye Straw or Mulch Master Packaged Straw -** Do not use Hay, it’s for horses, but better for cows
☺ Scatter Around Seeded Area
7. **WATER- WATER- WATER....** Oscillating Sprinkler
